*English-speaking PhD students should participate in classes for the IBDS (Intercollegiate Biotechnology Doctoral School) group, which are being conducted in English. The regular classes for humanities and social sciences are being held in Polish according to a different schedule. The schedule above reflects the timetable of the IBDS group.

Joint courses from this schedule, other than Innovative didactic methods, may not have an English counterpart. Therefore, English-Speaking PhD students should contact the instructors directly to the manner of obtaining credit.
