Joint courses from this schedule <u>other than Innovative didactic methods</u> may not have an English couterpart. Therefore, English-speaking PhD students should contact the instructors directly to the manner of obtaining credit.

*English-speaking PhD students should participate in the **Innovative didactic methods** classes for the IBDS (Intercollegiate Biotechnology Doctoral School) group, which are being conducted in English. The regular classes for humanities, social sciences and natural sciences are being held in Polish according to a different schedule. The schedule above reflects the timetable of the IBDS group.

Philosophy of science will be held closer to the summer semester (details to be announced before the beginning of the course)

First-year doctoral students are also obligated to complete online courses in **Diversity and cross-cultural interactions in scientific collaboration and research** (details separately)
